

- Notes
- proposed selected heavy standard tree planting 12-14cmg, 3.6-4.25m
 - proposed native ground cover to steep slopes planted into biodegradable mulch mat
 - proposed beech hedge
 - proposed hazel and hawthorn at 1.5m centres
 - trees removed under NCC supervision [refer Tree Survey by Tree Care Consulting]
 - existing trees to be retained [refer Tree Survey by Tree Care Consulting]

Trees	Species	Height (mm)	Description	Spacing	Total (no.)
See plan for tree pit detail. Secured with 2 or 3 stakes and biodegradable pad and belting. Good branching rather than height is key. 75mm mulch to 1.2 sqm. Provide mowing guards where trees are in grass.					
Acer campestre [Field maple]	12-14cmg	Container or rootballed	As per plan	1	
Crataegus monogyna [hawthorn]	12-14cmg	Container or rootballed	As per plan	2	

Slopes Mix 1 – planted into biodegradable matting				
Hazel [Corylus avellana]	Feathered 1.25m at 1.5m cs	Bare root	15	
Hawthorn [Crataegus monogyna]	Feathered 1.25m at 1.5m cs	Bare root	15	
Ivy	145sqm at 6/sqm	1L	870	
Ferns – plant in species clumps of 3 in groups of 1sqm allow to spread	10% of area at 6/sqm	1L		
Harts tongue (Asplenium scolopendrium) E			30	
Hard fern (Blechnum spicant) E			30	
Common male fern (Dryopteris felix mas)			30	

Highway frontage verge Mix 2			
Ivy	35sqm at 6/sqm	1L	210

Beech hedge			
Plant a straight row at 5 plants/lin m. Mulch full hedge width of 800mm to 50mm depth. Maintain to height of around 1.2- 1.5m, only prune once height is reached ideally in August.			
Fagus sylvatica [beech]	Bare root 600-900mm	5/linm	100

All dimensions must be checked on site and not scaled from this drawing.

This drawing is for the purposes of PLANNING. Based on Ordnance Survey and topographic survey data as supplied. OS Licence 100043966

Layout based on site layout by Mark Fouweather.

Refer to Mackley Davies Soft Landscape Outline specification, plant schedule, maintenance plan.

Rev A October 2023 laurel to beech hedge.
