Subject: 25/0179 application complaint

Hello,

I wish to raise a further complaint against plot number 4 of the new houses at trinity view caerleon (planning number 25/0179).

It has recently been brought to my attention that revised plan with drawing reference 4.14 has been submitted but what has actually been built in terms of the living space above the garage is significantly higher. I still maintain that this house has an excessive amount of roof surface area and the increased height of the roof is contributing to this.

Regards
