

APPLICATION NUMBER: 25/0213

PROPOSAL: 23/0949 FOR BATTERY ENERGY STORAGE SYSTEM

SITE: Uskmouth Power Station,

APPLICATION TYPE: Renewals and Variation of Conditions

The Detailed Landscape Design/Green Infrastructure Plan rev PO1 shows the revised Attenuation Basin position.

The covering letter by Tetra Tech confirms that plant species, type and numbers have been maintained from the original approval.

I have no objection to the changes.
