to ensure the site has suitable facilities to serve the number of proposed occupants against the HMO Licencing Standards.

It is considered that there are no insurmountable material planning considerations given the sites location within a residential area, the retention of open space and the on-street parking controls. Should a full planning application be submitted I would advise that limited weight is given to the comments regard the existing use in the absence of a Lawful Development Certificate. However, I would not consider this to be essential in justifying the proposed change of use to a HMO given that thresholds and other material planning considerations appear to be/are likely to be, acceptable.
