Your Ref: 26/0394

Dear Sir

Grid Ref: ST314884 331410 188455

Site: 12 Clarence Place, Newport, NP19 0AE

Development: CHANGE OF USE FROM RETAIL TO A3 HOT FOOD TAKEAWAY WITH AND INSTALLATION OF EXTERNAL EXTRACTION FLUE TO REAR (RESUBMISSION OF 24/1048)

We refer to your planning consultation relating to the above site, and we can provide the following comments in respect to the proposed development.

The application appears to rely on existing sewer connections and no new connections are to be made with the public sewerage system. Nonetheless, for the avoidance of doubt, we would request if minded to grant planning consent that the following Condition and Advisory Notes are included to ensure no detriment to existing residents or the environment and to Dwr Cymru Welsh Water's assets:

Condition The approved use shall not commence until an adequate grease trap has been fitted in accordance with details that have been submitted to and approved in writing by the local planning authority. Thereafter the grease trap shall be maintained so as to prevent grease entering the public sewerage system. Reason: To protect the integrity of the public sewage system and ensure the free flow of sewage

Advisory Notes *The applicant may need to apply to Dwr Cymru / Welsh Water for any connection to the public sewer under S106 of the Water Industry Act 1991. If the connection to the public sewer network is either via a lateral drain (i.e. a drain which extends beyond the connecting property boundary) or via a new sewer (i.e. serves more than one property), it is now a mandatory requirement to first enter into a Section 104 Adoption Agreement (Water Industry Act 1991). The design of the sewers and lateral drains must also conform to the Welsh Ministers Standards for Gravity Foul Sewers and Lateral Drains, and conform with the publication "Sewers for Adoption"- 7th Edition. Further information can be obtained via the Developer Services pages of www.dwrcymru.com*

The applicant is also advised that some public sewers and lateral drains may not be recorded on our maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water on 0800 085 3968 to establish the location and status of the apparatus. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its

apparatus at all times. In accordance with Planning Policy Wales (Edition 12) and Technical Advice Note 12 (Design), the applicant is advised to take a sustainable approach in considering water supply in new development proposals, including utilising approaches that improve water efficiency and reduce water consumption. We would recommend that the applicant liaises with the relevant Local Authority Building Control department to discuss their water efficiency requirements.

Our response is based on the information provided by your application. Should the proposal alter during the course of the application process we kindly request that we are re-consulted and reserve the right to make new representation.

If you have any queries please contact the undersigned on 0800 917 2652 or via email at developer.services@dwrcymru.com

Please quote our reference number in all communications and correspondence.

Yours faithfully,
Phillip Little
