

APPLICATION NUMBER: 25/0438

PROPOSAL: PROPOSED SWALE AND GREENWAY ON LAND EAST OF PHASE 4C
AND WEST OF PHASE 4E/4G

SITE: Glan Llyn Development Site Queensway

APPLICATION TYPE: Full

The 'Detailed Planting Proposals Swale Land' rev PO2 by Liz Lake shows grass seeding with areas managed as wet meadow grass and 5no standard trees.

There are no proposed hedges or feathered tree and shrub blocks to break up views between the housing phases. Particular areas where additional planting at the top of slopes may be expected are where the swale abuts hard surfacing from the phases, the obvious locations are highlighted below but there may be others.

Can the planting proposals be reviewed again and shown in relation to approved or proposed planting to the east and west.
