Hi Kelsey, no I wouldn't ask for an ecology survey for this application. Although there are some trees nearby they are not likely to support protected species of nocturnal animals such as bats or dormice. Also, the lighting would not be likely to impact any significant ecological connectivity or dark foraging corridors, given the local context, so I have no objection to this application.

Matt

Hi Matthew,

I hope you are well. I was just wondering if you have any thoughts/ objections to the planning application 25/0225. The advert is illuminated and sited close to trees, so I'm not sure if the lighting of the advert could have an impact on the ecology of the area? We don't have any information on ecology submitted, so do you think we should request one?

Kind regards,

Kelsey Parsons
