Subject: RE: 19/0937 - Land to south of Glan Usk

Hi Geraint,

I have received the following information from the client:

Balco buy their glass from Pilkington in big sizes so no samples available. The opaque glass delivered in project 19041 is Pilkington Optifloat Opaque and has a light transmission of 82%-85%.

Hope this helps.

Kind regards,

Liam Griffiths – Graduate Planner
