

- Planting Notes:**
- Tree procurement, planting and management shall be in accordance with BS 8545:2014 Trees: from Nursery to Independence in the landscape- Recommendations.
 - All other plants shall be handled in accordance with 'Plant Handling', the booklet published by the Committee for Plant Supply and Establishment (CPSE). The contractor shall comply with clauses 3 & 4 of the above booklet (obtained from the Horticulture Trades Association, 19 High Street, Theale, Reading, Berks RG7 5H) which refers to the receipt, unloading and temporary storage of plants.
 - Plants shall be first class examples of their species or variety, free from all pests and diseases, with good fibrous root systems and materially undamaged (refer to relevant sections of BS3936 Parts 1-4 'Specification of Nursery Stock').
 - Shrub beds to have a min depth of 450mm good quality topsoil, beds should be cultivated prior to planting and be free from weeds or any stones/ rubble material greater than 50mm. Ensure that areas around the base of shrubs are maintained weed free during the establishment period using a glyphosate based herbicide.
 - All BR whips and BR stock (proposed woodland mix) to be protected with a spiral bound tree-shrub guard and secured into place with a cane. Ensure that the areas around the base of the shrubs are maintained weed free during the establishment period using a glyphosate based herbicide. BR stock should be notch planted and heeled securely into position.
 - Each tree/shrub shall be individually guarded with a 600mm Tree or Shrub Shelter (film-coated @ 130-160 mm diameter) secured by a 25mm X 25mm X 750mm galvanised softwood stake driven a minimum of 250mm below ground-level.
 - Extra heavy standards are to be double staked using short stakes (at 600mm above ground level) and secured with a cross bar and rubber webbing tie and spacer. A robust strimmer-guard (Arbortech Standard Strimmer Guard or similar) is to be used.
 - For all trees; one number 80 litre bag of tree planting compost (non-peat based) is to be incorporated into tree pits. Compost must be mixed thoroughly with topsoil. Trees shall be planted in tree pits of the following minimum sizes (or large enough to comfortably accommodate the root ball, whichever is the largest):

Extra heavy standard	1000x1000x750mm deep
Standard	800x800x650mm deep
 - All trees planted within turf to have a surface mulch of chipped bark or wood chip to be applied to a depth of 100mm in a 500mm radius cleared of all competing vegetation.
 - The contractor must ascertain for himself/herself the exact location of underground services and maintenance points.
 - All areas of ornamental planting are to be mulched to a depth of 50mm with medium grade tree bark.
 - It is presumed that the grassed areas will be seeded with a general amenity grass mix (unless otherwise advised by the client).
 - SuDS areas will be seeded with a wildflower wetland mix that will be tolerant to flooding.
 - Water all plants and trees on the same day of planting and thereafter as necessary (min. once per week in periods of drought) to ensure the establishment of plants during the 12months defects period.

LEGEND

SOFT LANDSCAPE

- Existing Trees and Hedges to be Retained**
Please refer back to arboricultural report. Trees to be retained in line with BS5837:2012.
- Existing Trees and Hedges to be Removed**
Please refer back to arboricultural report. Trees to be removed to facilitate development.
- Proposed Trees**
Trees to comprise of 14-16cm girth Extra Heavy Standards, 400-450cm height, with 2m clear stem.
- Proposed Native Buffer Planting**
To be planted as 80-100cm BR whips at 1 plant per sq.m. To consist of at least 5 native shrub species and provide opportunities for nesting and foraging.
- Proposed Native Hedgerow**
To be planted as 80-100cm BR whips at 5 plants per lin.m. To consist of at least 5 native shrub species and provide opportunities for nesting and foraging.
- Proposed Ornamental Planting**
Shrubs and herbaceous plants to be planted as 3L pots at 3-5 per sq.m to soften the built form and provide seasonal interest.
- SuDS Areas**
Proposed SuDS areas to be turfed with a wetland seed mix EM8F Wild Flowers for Wetlands - Available from Wildseed.co.uk or similarly approved.
- Amenity Grass**
Public open spaces to be turfed with a general amenity lawn.
