Subject: RE: 25/0590 - Llanwern works

Hi Vicky

I have looked at the submissions in respect of the above application and it appears that they relate to the initial phase of remediation for the site after which the construction of units will include a further 600mm of clean cover.

Provided the units have not been built yet the information provided is sufficient to support partial discharge of condition.

I look forward to receiving verification reporting in respect of the completed units in due course.

Cofion gorau / Kind regards,

Steve
