

Green Infrastructure Statement

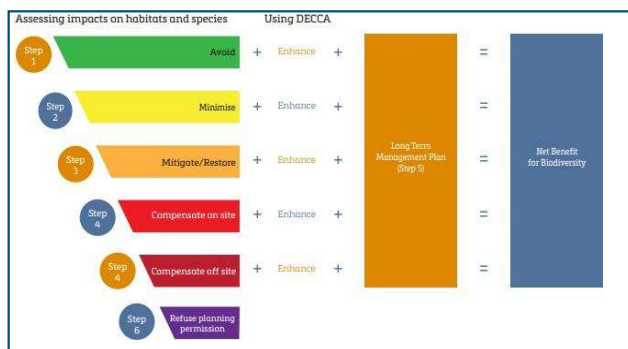

Introduction

This Statement has been prepared to accompany the householder planning application proposed for a first floor side extension and retention of driveway at 12 Farnaby Close, Newport, NP19 9PN.

As per Planning Policy Wales, Edition 12, February 2024 a Green Infrastructure Statement is required to demonstrate how a step-wise approach has been considered in maintaining and enhancing biodiversity for the proposals. The statement should be proportionate to the scale and nature of the proposed development. Only a short description is required for more minor developments such as householder applications.

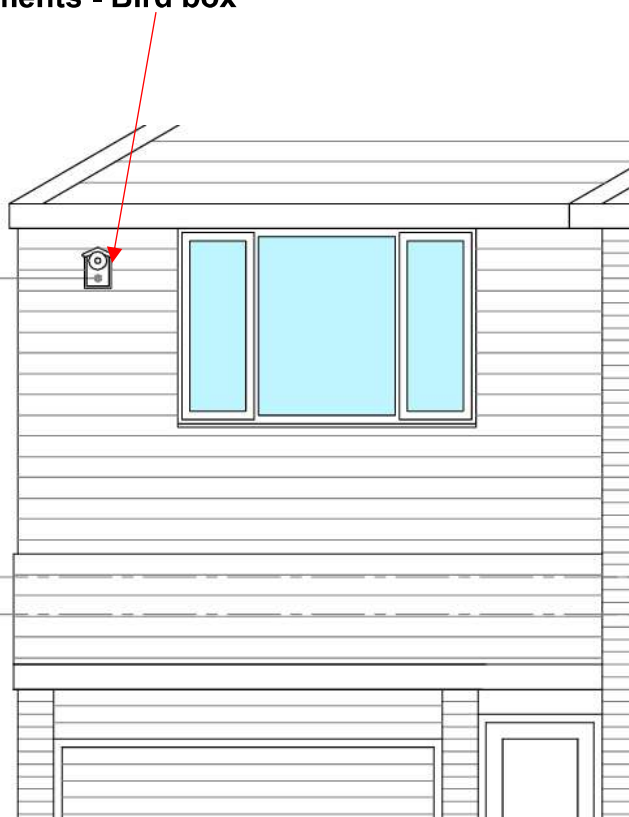

The figure below provides a summary of the stepwise approach as set out in Chapter 6 of PPW.

Summary of the Step-Wise Approach

Proposed Ecological Enhancements - Bird box

woodstone type
bird box on north
elevation, mounted
on wall with min.
2500mm to bottom
of box

This proposal satisfies the duty to maintain and enhance biodiversity under Section 6 of the Environment (Wales) Act 2016 and contributes to the delivery of resilient ecological networks through small-scale, yet high-quality, ecological features.
