

Landscaping details

- We have no intention of cutting the front hedge further back.
- I have holly bushes and magnolia in tubs awaiting their permanent home. The plan shows bin store next to porch, that is in fact going to be a border for planting.
- The colour scheme is in fact green and white, so here are some thoughts white hydrangeas standard bay trees, I need to squeeze my herb garden back in somewhere. We will be providing companion planting through the summer, so we grow tumbler toms etc so will have marigolds. That kind of thing. Fruit bushes. I'm not sure how detailed you need me to be.
