Afternoon Geraint

I have looked at the submissions in respect of the above and am supportive of the results obtained for validation reporting.

For clarity please can the applicant confirm which plots have now been completed and validated? and which plots remain to be validated ? This should take the form of both a table and layout drawing indicating by colour those validated and those remaining.

It may be the case that the site is now built out in which case confirmation of this is also sought.

Kind Regards  
Steve
