Subject: Planning application 26/0099 and car parking.

Dear Mr Robert's

Please find attached photographs taken today 13th June. They show Nash Road, Traston Road and Traston Avenue. You will find cars parked on pavements and blind corners. This could be a precursor to the problem that would undoubtedly be far worse as the application would result in 250 plus people looking for parking. I request that this problem is given serious thought when a decision is made. The need for emergency vehicles to gain access to the estate would be seriously impeded.
