Planning case officer:

Lydia Burrows

I refer to the above application passed to the Environmental Protection Team for comment.

I confirm I have no objections to the proposals; however, have concerns regarding the Totem Advert as this has a potential of dazzling effects thereby could compromise the road safety of the motorists.

Therefore, I would suggest the following Condition should be attached to any permission granted;

The luminance level of for the Totem Advert would 300cd/sqm from dusk-dawn and upto 5000cd/sqm at all other times dependent on time of day/year and ambient conditions in line with ILP Guidance.

Reason: In the interests of amenity, public safety and in order to retain effective planning control.
