Dear Sir

Re: Proposed Single Storey Rear Extension, Side Dormer, Replacement Garage and Garden Room: 1 Tennyson Avenue Llanwern.
Pl.App.No.: 26/0188.

Thank you for consulting us about this application; consequently we have reviewed the detailed information contained on your website.

We have consulted the regional Historic Environment Record and note that the application area is situated outside and close to the boundary of the Gwent Levels Archaeologically Sensitive Area. The HER data notes that whilst there are no known archaeological sites within the development area itself, human remains of Roman date were found c300m west; and more extensive evidence of Roman settlement and industry is noted within 2km. We note that the immediate site of the proposed work will be in an area which has been disturbed. The HER also notes that archaeological mitigation work to the immediate east, south west, and south east, of the site did not encounter any archaeological features or artefacts.

As a result, there is no archaeological restraint to this proposed development and consequently, as the archaeological advisors to your Members, we have no objections to the positive determination of this application.

The record is not definitive, however, and features may be disturbed during the course of the work. In this event, please contact this division of the Trust, as mitigation may be required.

If you have any questions or require further advice on this matter please do not hesitate to contact us.

Yours faithfully

Judith Doyle
