Extract from the detailed pre-application feedback below;

"...the proposed changes are acceptable in principle, with no significant objections raised. A consistent and cohesive design should be maintained throughout. Aluminium frames are preferred, provided they do not appear bulkier than the existing ones. The proposed grey colour is considered suitable given the surrounding context. The window panels and vertical shading elements are not unacceptable; however, they must remain visually unobtrusive. While the indicative scale, depth, and height of the shading appear acceptable, further details—particularly on style and colour—should be submitted for full assessment."

Authority Employee/Member

With respect to the Authority, is the applicant or agent one of the following:
