Subject: RE: Planning Consultation Request for case ref: 26/0112

Hi,

I would like to support this application (26/0112) as it is perfectly located for school drop offs to Lliswerry Primary School as it is a short walk under 300m to the school gates with no roads to cross. In addition to this Lliswerry has seen growth in population in the area and is in need of child minding services for working parents.

I believe this application will actually reduce risk outside Lliswerry Primary school during drop off/ pick up times as the current situation is working parents with multiple children will park close to the school to drop them off then drive to the child care facilities to drop off the younger children. Where as with the proposed application parents will park on Kitty Hawk Drive and walk to the school easing the pressure directly outside the school.

I'm sure working with the applicate to resolve issues with flood risks can be overcome by having and flood emergency plan in place as I mentioned earlier the school which is less than 300m walk away and even less as the crow fly's is on the same AOD level and they cater for 600 plus children with a much large ratio of children to staff.

Again with other concerns like noise and parking I'm sure these can be mitigated by having sound damping measures such as acoustic fencing out the garden or sound proof foam on internal party walls. As for the parking I believe parents will be encourage to park on Kittyhawk Drive if the entrance for pick up and drop off is through the rear garden.

If you are of a mind to refuse I would like to call this application to committee and I would request to speak at that meeting.

Many Thanks

Cllr James Peterson
