

Highway Response

Ref: 26/0556

Date: 03/08/26

PROPOSAL: EIA SCREENING FOR A LARGE SOLAR FARM (DNS)

SITE: Land Between M4 Motorway And South Wales Main Line Railway Near Llanwern Underwood And Bishton

Case Officer: Geraint Roberts

Highway Officer: Kevin Jackson

Highway Comments:

The main impacts of the development would be temporary increases in HGVs and potential for glint/glare. These can be addressed satisfactorily through a CEMP and a glint/glare assessment. These could be incorporated into an EIA or stand alone documents.
