**Subject:** Re: Application 25/0865 yew tree cottage old hill Christchurch

In addition to the above planned application we would also lose the sunrise sunlight that we currently get in the morning plus our current view of the sky & trees would be lost. We would only have a view bricks & mortar.

I would like too object in the strongest way possible at the application for the extension at the above property. The planned extension would look straight into my garden & windows of my property..59 old hill crescent Christchurch...

Regards
