

Petition to Object to the Erection of an 8-Foot Security Fence Around Malpas Park Primary School

To: Newport City Council Planning Department
Subject: Objection to Planning Permission for 8-Foot Fence at Malpas Park Primary School

We, the undersigned residents of the local community, strongly object to the proposed erection of an 8-foot fence around Malpas Park Primary School for the following reasons:

1. Unnecessary Measure

The school has been established for many years without any security incidents. There is no evidence to suggest that such an extreme measure is required for safety.

2. Negative Impact on Local Properties

The proposed fence will significantly obstruct views from surrounding homes, replacing the current open and pleasant outlook with an imposing structure. This will diminish the visual appeal of the area and negatively affect residents' enjoyment of their properties.

3. Aesthetic and Environmental Concerns

An 8-foot fence will be an eyesore, creating a prison-like atmosphere rather than a welcoming environment for children and the community. It is inconsistent with the character of the neighbourhood.

4. Community Well-being

The open aspect of the school grounds contributes to the sense of space and community. Erecting such a fence will erode this, creating unnecessary division and reducing the overall quality of life for residents.

We urge the council to reconsider this proposal and explore alternative, less intrusive security measures that maintain the safety of pupils without compromising the beauty and character of our community.
