Hello,

I am emailing to express our excitement for the ongoing application for the Village Hall car park to be going ahead - we feel this will help the village hall massively in regards to party bookings & events as many customers question why they haven't got their own car park available. It will also help with safety towards customers/children as currently they have to walk down what can be a busy road so a pathway away from traffic would be massively helpful.

I look forward to seeing the work beginning soon.

Kind regards

Fifteen by Llanwern Village Management)
